WORK EXPERIENCE

CarWale

Associate Software Development Engineer

Mumbai, India

Jul/2021 - Present

- CarTrade New Cars team:
 - Delivered more than 10 New Cars pages
 - Constantly worked on **improving the core web vitals** of the migrated pages and keeping them **SEO friendly**
 - Developed a **consumer for RabbitMQ** to sync user reviews between old PHP system and current .NET system
- **Technologies Used:** .NET, HTML/SCSS/JS

CarWale

Associate Software Development Intern

Mumbai, India

Jan/2021 - Jun/2021

- CarTrade New Cars team:
 - Involved in codebase migration from **PHP to .NET**
- Hacktivite 3.0 - Synthesis:
 - CarWale's annual hackathon. My team's topic was TRAI SMS template system
 - **Created a paginated dashboard** and **developed a new endpoint** in Templates microservice which fetches metadata of the existing templates
- CarWale Prices team:
 - Integrated BikeWale related operations into **5** CarWale operation panels. Each panel serves an **unique** purpose
 - Involved in **modification of UI, refactoring/creating endpoints** in Prices microservice using gRPC and **data consumption** from other microservices
- **Technologies Used:** .NET, gRPC, MySQL, HTML/CSS/JS

PERSONAL PROJECT

Clustering Visualizer

clustering-visualizer.vercel.app

Jun/2021

- A canvas animation project which helps to visualize **K Means**, **K Medoids** and **DBSCAN** algorithms
- **Technologies Used:** Next.js, Redux, Typescript
